   Thanks Jen. There are several AA ships sitting in the EOC now. The EOC Finance Desk will work with those individuals once a code is established.

Thanks for the OCFO reachback

No problem, just let me know what it needs to say.   Also, is this something that should come from OCFO? Broader than just OSWER if OW is involved.

Will you all be sending out a note, or should it come from SBO (sorry, Jen)?

Thanks!

M-

Region 8 set up a site specific code in their region A8K9

Changes please let others in OEM know. OEM and other AA ships will need to use.

THANKS for the followup

Subject: SSID for Gold King

Laura called about whether we had an SSID set up for Gold King mine (OCFO has been getting questions). I told her that there is an existing code, but we were looking into having the code set up in PPL.

She said that Carol and Maria would send a note to the affected regions on what the code is.

Thanks!
